

**Fullerton's Fury End Mill Dominates in Steels,
Stainless Steels, Super Alloys, and Titanium**

Great for Use In:

Steels

Stainless Steels

Super Alloys

Titanium

3500 Series Fury End Mill:

- Dominates in Stainless Steels, Super Alloys, and Titanium.
- Performs exceptionally in high-speed machining and full diameter milling.
- Tool versatility that results in higher productivity, less tool changes, and longer tool life.
- Produces excellent surface finishes.
- FC-20 Coating significantly lowers operating cutting temperatures compared to other coatings.
- Available in Stub and Standard lengths.
