User Permissions

Please select how you would like to manage future user permissions from your company. You can choose to ***1. preapprove all future users from your company to place orders on behalf of your company,*** *all new users would be granted Super User permissions - allowing them to create carts, submit orders, and track orders* or ***2. manage user permissions of future users through fullertontool.com,*** *permissions include User (has access to create wish-lists and track orders), Super User (has access to create carts, submit orders, and track orders), and Administrators (manage user permissions, create carts, submit orders, and track orders).*

◯ **Preapprove Future Users** - I preapprove all future users from my company to place orders on behalf of my company with Super User permissions (have access to create carts, submit orders, and track orders).

◯ **Manage User Permissions** - I will manage user permissions of future users through fullertontool.com, user permissions include User (has access to create wish-lists and track orders), Super User (has access to create carts, submit orders, and track orders), and Administrators (manage user permissions, create carts, submit orders, and track orders).

Administrator Acknowledgement

☐ By initialing below, I certify that I am authorized to place orders on behalf of my company as well as authorized to permit access to users on behalf of said company.
